CORN AND WOOD WANTED—for dues to this Office. Patrons will please supply us at once.

TO OUR PATRONS.—We take this occasion to remind our patrons that we need money, and we trust this simple reminder will be sufficient to cause them to come forward and pay their indebtedness. To those in arrears for subscription, advertising, &c., due previous to the death of the late proprietor, we have to say that his estate must be closed up, and the Executors require immediate settlement of all outstanding dues to this office. We hope this hint will be sufficient to cause a prompt response, and prevent a resort to other means for collection.

CIRCUIT COURT.—The Jefferson Circuit Court resumed its session on Monday of last week, and continued until Saturday, when an adjournment was ordered until Tuesday, (Tuesday), at 2 o'clock, P. M.

No jury cases tried during the week, the jury being discharged on Wednesday, and the principal time of the Court was occupied in chancery business.

During the week Judge Hoge delivered his opinion on the motion for the release of Capt. Geo. W. Chambers from confinement in the county jail—the term of his imprisonment having expired some days ago. The decision of his Honor was, that the prisoner having failed to pay the fine imposed in his sentence, he had, under the law, no jurisdiction in the matter. According to this decision, therefore, Capt. Chambers remains in prison for six months in default of payment of his fine, unless sooner released by the Governor.

The Court on Saturday, gave its opinion in the *habeas corpus* case of H. D. Rust vs. Mrs. Mary E. Vanvactor, deciding the father, Mr. Rust, as entitled to the custody of his child—a little girl eight years of age, until the present time retained by Mrs. Vanvactor, its grandmother, to whom it was entrusted under its opinion by the Court, application was made by Mrs. Vanvactor's counsel for a suspension of the order of the Court, which his Honor took under consideration and will decide upon to-day—the child meanwhile remaining with its grandmother. This case, as in all other similar trials on a writ of *habeas corpus*, has attracted considerable interest, and no little sympathy for all parties. Whilst the decision of Judge Hoge, giving the child to its father, its natural guardian, and a most worthy gentleman, meets with the hearty approval of the community at large, yet this does not prevent a strong feeling of commiseration for the old lady who, in the decline of life, is compelled to surrender the little one around whom the strongest affections of her nature have been centered, and she has therefore, much sympathy in her present trial. All, however, we trust, is for the best, and in the end will prove beneficial to all most immediately concerned.

FATHER KAIN'S LECTURE.—The announcement that the Rev. Father J. Kain, of Harper's Ferry, would deliver a lecture explanatory of the doctrines of the Roman Catholic Church, was as reasonably anticipated, drew a large assembly of eager listeners to "Washington Hall" on Tuesday evening last. The speaker, after opening his discourse with a beautiful comment on that greatest of all virtues, christian charity, proceeded in a clear and masterly manner to elucidate to his hearers what he termed to be the leading and most often assailed doctrines of the Catholic Church. The manner and delivery of the speaker throughout his discourse was admirable, and whether it materially changed the views of any present or not, it was at least an able effort in defence of his church and its doctrines, and fully sustained the previous reputation of Father Kain as an ecclesiastical orator of no mean magnitude.

ACCIDENT AND NARROW ESCAPE.—Henry Cooke, a youth of about 17 years of age, son of the late Dr. H. P. Cooke and a pupil at the Charlestown Academy, met with an accident on Tuesday afternoon last that came near proving fatal. He was practicing gymnastic exercises on a horizontal bar erected for the purpose on the Academy grounds, and whilst swinging forward with considerable velocity, the grasp of his hands gave way and he was thrown violently forward, striking his head and narrowly escaping breaking his neck. He was taken to the residence of A. E. Kennedy, Esq., on Liberty street, and medical attention given him by Drs. Lippitt and Richardson, and at last accounts was doing well. This is a serious warning to boys, and should cause them to use the utmost caution in the exercise of these sports.

SUDDEN DEATH OF AN AGED LADY.—The community was shocked on Sabbath evening last on learning of the sudden and unexpected death of Miss Fanny C. Brown, eldest sister of Mr. Joseph Brown, of this place. She had just eaten her supper and retired to bed, when she was taken with a hemorrhage of the lungs, and expired almost instantly. The deceased was aged about 75 years, and lived a quiet, unobtrusive life with a younger sister, mingling but little with the world, and has ever borne a most irreproachable character. The mourning friends have the sympathy of the community in their sudden bereavement.

SALE OF CAMP HILL PROPERTY.—The House and Lot of Mrs. Jane Daniels, on Camp Hill, Harper's Ferry, recently advertised in this paper, was sold on the 7th inst., by the Commissioners, Messrs. Davies and Brooke, for \$775. This is in fact a sale for say—\$1,000, as Mr. T. A. Kirwan, the purchaser, has a claim against Mrs. Daniels, and taking the property agrees to relinquish any balance that may remain due.

VALUE OF ADVERTISING.—A number of years ago when Orange Judd, publisher of the *American Agriculturist*, and his wife spent their evenings in putting up packages of seeds, and a penny had its full value to them, he sent a boy with a check for \$100 to the New York *Herald* office, with instructions to pay what was due and leave the rest for advertising. The boy being dull of comprehension did not understand him, and told the book keeper to use \$100 for one day. The next day what was Mr. Judd's horror to see, on taking up the *Herald*, "Read the *American Agriculturist*," repeated for nearly a whole column. He rushed down to the office for an explanation, and found that they had only followed instructions, and there was no help for it. "We are ruined," he said to his wife, "a whole year's advertisement gone in one day." But instead of being his ruin, it was the beginning of his success. Immediately subscription-poured in from all over the country. The *Agriculturist* became an institution, and its proprietor is one of the wealthiest men of New York. Mr. Judd has continued from that day of his lucky mistake to be one of the most extensive and wealthiest advertisers in the country.

COURSE OF LECTURES.—A number of prominent gentlemen of this community have for some time had under consideration the feasibility of securing, during the winter months, a course of interesting lectures by able and popular speakers. The subject is one in which all should take a deep interest, and we trust that the efforts of those who have inaugurated it will be warmly seconded by the community at large. A pure and rational entertainment such as is suggested will not only prove a rare treat to many, but will serve to aid in elevating the morals of the masses to a higher standard of perfection, and thus be of incalculable benefit to numbers. An evening with Bayard Taylor in his travels through Egypt, or John B. Gough or Thomas Guard in their thrilling and interesting lectures, would in all probability draw many a young man from evil associations and corrupting influences, and give to his manhood a loftier and more ambitious aim. Let the subject be agitated.

CONCERT BY OUR BAND.—The members of the Charlestown Cornet Band as heretofore announced, will give a Concert at Washington Hall on Wednesday evening, November 18th. That this organization, with the valuable assistance of Prof. T. M. Turner, and perhaps others, will give a most pleasant and agreeable entertainment, we cannot doubt, and we therefore bespeak for our Band a large and appreciative audience on the evening of their first appearance. Let a liberal endowment be extended.

PREPARE FOR WINTER.—One of the best guarantees against bad colds in winter is to have your feet well shod, and to do this to one is more ready to accommodate the public than Mr. Geo. H. Hagley, at his Boot and Shoe Establishment, Main street, nearly opposite the First National Bank. Call and see him in time.

DROWNED.—Mr. Linton M. Andrews, aged about 70 years, whom many of our readers will remember as the old man who has so often been heard making political speeches on our street corners, was drowned in the C. & O. Canal, near the railroad bridge at Harper's Ferry, on Wednesday night last.

JEFFERSON COUNTY COUNCIL. F. H. A. at a recent meeting of Jefferson County of Patrons of Husbandry, the following resolution was adopted: Resolved, That sympathizing with our Brother Grangers, who have sustained loss by fire, caused by sparks from engines on the B. & O. R. R., we cannot forbear an expression of our belief that carelessness, amounting to criminal neglect, characterized the operations of said Railroad in this respect.

MATTERS ABOUT TOWN.—The religious revival at the M. E. Church South continues with increased interest. The Baptist Church authorities are having their church grounds enclosed with a neat and substantial paling fence. We had a slight sprinkle of rain and rain on Sunday.

"GENIEVEVE."—The Musical Association, as will be seen by advertisement, will repeat the beautiful Operetta of "Genieveye" on Wednesday evening, November 25th, on which occasion we anticipate for the Association a full house.

Something nice—those Student Safety Lamps at Henderson's.

A resolution was passed to provide a fund for the education of children of Masons, and some institution of learning in the State, and a committee of five was appointed to take charge of the matter, and \$150 put in the hands of the committee for immediate use.

SUDDEN DEATH IN THE PULPIT. The special dispatches of The Sun yesterday announced the death in his pulpit while preaching on Sunday last, of the Rev. Milton E. Hysore, pastor of the M. E. Church, Twelfth street, Washington, D. C. Mr. Hysore died almost instantaneously, in the midst of his discourse. The church was thronged at the time, and everybody was shocked by the occurrence. The subject of his discourse was "The Word of Life." He had just commenced on beginning the service that he was suffering from inflammation of the throat. When he had proceeded some time in his sermon, he stopped, and exclaimed: "Brethren, I feel very sick." He then put his right hand to his forehead as if suffering intensely and crying, "Jesus, save me, save me now," he staggered and fell on a sofa. Many persons hastened forward to his assistance, his wife being first. She lifted his head to her shoulder and asked if he felt sick. He answered "Yes," and sank back insensible, breathing his last a few minutes. Drs. Adams and McKim arrived promptly, and pronounced the cause of death congestion of the brain.

[Baltimore Sun, Oct. 10.]

The above reverend gentleman who died with his arm on it, was formerly of the M. P. Church, and married a Miss Krepps, of Harper's Ferry, in this county.

\$50,000 FOR ONE DOLLAR.—All Texas is thrown into a fever of excitement by the Texas Gift Concert Association, at Denison, offering inducements to the public, equalled before by any association of the kind. Purchasers of the tickets have every assurance that the drawing will be conducted in a fair and impartial manner and the investment of one dollar will surely net the Grand Cash Gift of \$50,000. Who will be the possessor of the lucky dollar? Apply to the local agent in this place for any information desired.

A wealthy lady of New York who recently spent a few days in Charlestown, in this State, proposed to rent, at her own expense, a room for the young men of that city as a free reading room, and also to furnish them all the standard periodicals published in New York City, and they might have a source of amusement and instruction, and not spend their time in saloons, &c. The proposition was gratefully accepted, and a room for that purpose has been engaged.

SINGULAR CASE OF WHORING CONVICTION.—It is unusual for old persons to have the whoring conviction, and yet the Staunton *Spectator* records a case in that place of a gentleman who has that disease who has reached the advanced age of ninety-five years. This gentleman is Maj. Taylor, of South Carolina, who is a son of Col. Taylor, of the Revolutionary war. He is staying at the time with his daughter-in-law, Mrs. Charlotte B. Taylor, of Staunton.

ROBBERY.—Some person or persons entered the kitchen of Mr. David Billinger, on Sunday night last, through a window, and took therefrom some flour, meat apples, &c. On the same night some person tried to enter the kitchen of Mr. Jacob Hill, but was driven away by a dog which Mr. H. keeps in the yard for protection. —Shepherdstown Register.

Stanton, beyond all doubt, is the most thriving town in Virginia. Her march has been upward and onward for the nine years since the war. Last year there were erected within her boundaries 125 buildings at a cost of \$277,000, the cost ranging from \$50 to \$10,000 each, and averaging over \$2,000 each.

A. Walking Advertisement.

LIMESTONE SPRINGS, S. C.
Dr. R. V. Pierce, Buffalo, N. Y.
DEAR SIR:—I am a walking advertisement for your Golden Medical Discovery. Purgative Pellets and Dr. Sage's Catarrh Remedy, which have cured me of Catarrh of nine years' standing, which was so bad that it disfigured my nose, and, while curing it, your medicines also cured me of Asthma in its worst and most aggravated form. In using your medicines I had become reduced in flesh from one hundred and fifty-five to one hundred and fifteen pounds, and I now weigh one hundred and sixty-two pounds, and am in better health than I have enjoyed for twenty years. Yours truly,

J. L. LUMSDEN
The above is but a fair sample of hundreds of letters which are received by Dr. Pierce, and in the face of such evidence who can longer doubt that the Doctor's medicines cure the worst cases of Chronic Catarrh.

The Great Favorite with the Ladies.

Wm. Forsyth Bynum & Son, druggists, of Live Oak Fla., write, Sept. 16, 1874, as follows:
Your Golden Medical Discovery and Purgative Pellets will very largely give complete satisfaction, as number of our customers and friends testify with pleasure. Your Favorite Prescription is indeed the great Favorite with the ladies, and numbers can say with joy that it has saved them from eking out a miserable life or meeting with premature death, and restored them to health and happiness.

Thousands of women bless the day on which Dr. Pierce's Favorite Prescription was first made known to them. A single bottle often gives delicate women more relief than months of treatment from their family physician. In all those derangements causing back-ache, dragging down sensations, nervous and general debility, it is a sovereign remedy. Its soothing and healing properties render it of the utmost value to ladies suffering from internal fever, congestion, inflammation or ulceration, and its strengthening effects tend to correct displacements of internal parts, the result of weakness of natural supports. It is sold by all druggists.

Dr. Pierce's pamphlet on Diseases peculiar to Women will be sent to any address on receipt of two stamps. Address as above.

The Season of Intermittents.

All malarial complaints, in other words, all disorders generated by unwholesome exhalations from the earth or water, are prevalent at this season. In every section subject to the visitation of fever and ague or other forms of intermittent disease, the malarial poison produces these maladies are not only very common, but they are also very dangerous. This, therefore, is a period of the year when the inhabitants of malarial districts should prepare their systems to meet the unwholesome condition of the atmosphere, by a course of tonic and alterative treatment. Forcemen among the invigorators, recommended by time and experience, as a means of fortifying the system against all endemic and epidemic malarial attacks, stand at the head of the list. No other medicine so effectively enters the stomach and bitters. Whoever has traveled in the West or South knows full well the eastern in which this indispensable preventive and restorative is held throughout these regions. It is literally a domestic staple in the swampy and mephitic localities which lie on the borders of many of our large rivers, and in the neighborhood of our southern habitations of all malarial districts should put their systems and constitutions in good defensive trim by a course of the best tonic and alterative. By this means the feeblest resident of an unhealthy soil may escape the sickness, which without the aid of this potent and powerful medicine, would overcome the strongest. Chills and fever, violent headache, constipation, rheumatism, dyspepsia, and many other ailments, which are brought on by the capriciousness of temperature and alterations of dry cold and excessive moisture in our climate at the coming of the rainy season, will all be averted to avoid these distressing ailments take Dr. Pierce's as a safeguard.
